

Positions open at Willamette Falls Neuropsychology LLC in Oregon City, Oregon.

Willamette Falls Neuropsychology LLC is a neuropsychology specific clinic in Oregon City, founded in 2016 by Loren Mallory, PhD, ABPP. But I have practiced in this area for 33 years. The clinic has been very successful and is very busy. I'm too busy! I am looking for qualified neuropsychologists to join the practice. The positions are flexible, associate or partner-track, full time, or part time. However, I am specifically looking for neuropsychologists who have an interest in becoming an owner/partner and help move the clinic into the future, even after I retire. For example, this would be an ideal position for a young neuropsychologist, perhaps just completing residency, ABPP or motivated to complete the board certification process, who would like the opportunity to become a partner in a successful practice in a nice area to live! There is good support for development of clinical practice and development of specific practice goals and specialties. There is opportunity to supervise/mentor doctoral students doing practicum placements from the APA accredited Pacific University neuropsychology trac. Our client base comes from all over Oregon, mostly the northwest quarter, and Southwest Washington. Our referrals come from primary care, neurology, directly from insurance companies, former patients, and other sources. We focus on straightforward neuropsychology referrals, such as TBI, memory/MCI/dementia evals, stroke, epilepsy or non-neurological seizures, other medical or neurological conditons, etc. We have stopped taking ADHD/intellectual/learning referrals because we don't have the room, but those or other patient populations could be redeveloped very quickly. The clinic provides excellent administrative support, including assistance in credentialling, all scheduling, billing and collections, etc. My administrator tells me we have 23 insurance contracts at this time. I am involved in forensic work and IMEs as well, and there is support for the development of forensic or medico-legal/IME work here.

I would be excited to talk to you at the AACN conference. Just let me know and we will find a time to meet. Otherwise, you can contact me at: Loren Mallory, Willamette Falls Neuropsychology LLC, 619 Madison St., Suite 108, Oregon City, OR. 97045. 503-467-9070. Fax 503-387-3957. mallory@wfneuro.com.
