Dear Neuropsychology Students, Interns, and Post-doctoral Fellows,

I am writing to invite you to participate in a survey being conducted by the American Academy of Clinical Neuropsychology (AACN) Student Affairs Committee (SAC) and The University of Iowa. The purpose of the survey is to collect data from a large cross-section of graduate students, predoctoral interns, and postdoctoral fellows in clinical neuropsychology across the United States and Canada about their professional training goals, perspectives and training experiences that can help inform future academic and training plans, as well as assess whether additional professional development programmatic activities are needed.

If you agree to participate, we would like you to click on this link:

https://usfhealth.az1.qualtrics.com/jfe/form/SV_bDVToXP82GetEmF

You will be taken to a website hosted by Qualtrics where you will be able to complete the survey. You are free to skip any questions that you prefer not to answer. It will take approximately 15 minutes to complete the survey.

We will not collect your name or any identifying information about you. It will not be possible to link you to your responses on the survey.

Taking part in this research study is completely voluntary. If you do not wish to participate in this study, simply do not click on the link. Reminder emails will be sent monthly until the survey is closed, which is scheduled for December 1st. If there is an insufficient response rate at that time, the survey will be extended until January 31, 2016 and further monthly reminder emails will be sent.

If you have questions about the rights of research subjects, please contact the Human Subjects Office, 105 Hardin Library for the Health Sciences, 600 Newton Rd, The University of Iowa, Iowa City, IA 52242-1098, (319) 335-6564, or e-mail irb@uiowa.edu.

Thank you very much for your consideration of this survey.

Sincerely,

Douglas Whiteside, PhD, ABPP
Chair, AACN Student Affairs Committee
