

For over five decades, Brooks Rehabilitation has been at the forefront of physical rehabilitation care. The nonprofit, based in Florida, is recognized as a premier rehabilitation system and ranks among the top 20 nationally according to U.S. News & World Report. Brooks currently operates three inpatient hospitals in Florida and is set to expand its reach through a collaboration with Mayo Clinic by opening a new facility on Mayo's Arizona campus in 2026. The organization's commitment to advancing rehabilitation science is evident in its focus on innovative research, education and cutting-edge technology. Offering a comprehensive system of care, Brooks provides inpatient and outpatient services, skilled nursing, assisted living, and memory care and impacts lives beyond the clinical setting through community programs designed to enhance the quality of life for individuals with physical disabilities.
